

SAFETY FIRST IN  
LOGGING CAMPSLumbermen Take Steps To Pre-  
vent Accidents Among Their  
Employees

In the hope of reducing the number of accidents in what has proved to be the most ill-fated of all the industries in the state, the Wisconsin Industrial commission is preparing to inaugurate a campaign of safety. The industry in question is that of the logging operations in the northern part of this state and Michigan.

The records of the commission show that during the last eighteen months forty men met death and 1,750 were more or less seriously injured in the woods. In comparison with the number of hands employed that is said to be the largest number of casualties recorded for any industry in Wisconsin. More than that, it is claimed by men who are familiar with the practices that a very large percentage of the accidents were avoidable if proper care had been used.

The record has become so alarmingly high that the lumbermen have taken official notice of it and at a recent meeting of the Northern Hemlock and Hardwood Manufacturers association, a committee was named to give the matter special consideration. That committee composed of five prominent lumbermen and a representative of the State Industrial Commission held several meetings and prepared thirty-six rules for loggers, relating to dangerous practices and one order pertaining to safe car stakes and binder posts. The association approved the committee report and the rules were endorsed by the commission and will now be published as official instructions.

In view of the fact that the majority of the accidents were avoidable it is the plan of the commission to make it a campaign of education, that the number of casualties may be minimized through the use of care and caution. To this end it is proposed to issue a poster, thirty-three by fifty inches in size, which will read as follows: "Seventeen hundred and fifty men were injured and forty were killed by accidents in the logging camps of Wisconsin during the past eighteen months. The majority of these could have been avoided if the following rules had been obeyed." This heading will be followed by the rules to be observed.

Accompanying the poster will be a bulletin with a picture of a man killed by a falling limb of a tree and a story of the actual accident. Other bulletins will also be issued, showing photographs of men at work and in danger of life and limb through failing to observe the rules. In addition to issuing these posters it is planned to have representatives of the commission, as far as it is possible, visit various camps and give talks to the men on the subject of safety, where that can not be done, others who are familiar with conditions will give such addresses. Through this system of education it is hoped to have the employees fully advised of the dangers of the craft and of the means of precaution to be employed to avoid such dangers. It is stated that in practically all the large foundries and steel mills in Wisconsin serious accidents have been reduced twenty-five to seventy-five per cent during the last four years. While mechanical devices have had some part in this method of economy it is the expressed belief of the commission and of employers that cooperation on the part of the men themselves has been the most potent factor, and it is upon that basis that this campaign has been launched.

CLOSED SEASON  
EVERY 2ND YEAR

New Richmond, Nov. 22.—There has been launched by the sportsmen in this city, H. F. Barnes of the H. S. Thompson Lumber company taking the initiative, a movement looking toward the amendment or repeal of the present law, which limits deer hunters in this state to one deer and that a buck. Mr. Barnes says the law prohibiting the shooting of does, while undoubtedly correct in theory, is not protecting the deer but it is increasing the number killed and adds that if the present slaughter is not stopped the deer in the Northern Wisconsin woods will soon be exterminated.

Mr. Barnes proposes the repeal of the one buck provision of the present law, and substituting in lieu thereof some real protection for the deer. To this end he proposes that the shooting of deer, both male and female of all ages, be prohibited in Wisconsin every other year. He would have an open season of not to exceed twenty days, but only once in two years.

RAILROADS WANT  
RATE INCREASERoads operating in State Ask  
Authority To Revise Their  
Schedules

The Milwaukee, Northwestern, Omaha and Soo railroad companies on Tuesday filed a petition with the Wisconsin railroad commission, asking for authority to increase freight rates on practically all articles of transportation except merchandise.

The filing of the petition follows the request of the Fox River Valley Shippers' association and the La Crosse Shippers' association for an order requiring the railroad companies to reduce their freight rates. The petitioning railroad companies Tuesday simply filed schedules giving the articles on which they want to increase rates. The formal complaint giving the reasons for their request will be filed later. The schedule does not disclose how much of an increase the railroad companies want to make in their rates.

The articles on which they want to increase their rates are, lumber, logs, pulp wood, tan bark, slabs and other forest products, sugar beets, grain, tobacco and other agricultural products, butter and eggs, cheese, live stock, brick and tile, crushed stone, sand, gravel and ice.

The La Crosse Shippers' association filed its petition asking for a decrease in freight rates on Tuesday. The Fox River Valley Shippers' association several days ago, by Attorney J. N. Tiltmore of Oshkosh, filed a similar petition.

The Madison board of commerce, representing shippers in the northern part of the state, recently filed a petition with the interstate commerce commission asking for an order requiring the railroad companies to decrease freight rates on interstate shipments. The Wisconsin railroad commission will hold a hearing on the freight rates petitioned before it early in January.

CHAUTAUQUA IN  
TWENTY CITIESUniversity Extension Division  
Plans Programs For Wis-  
consin Week

Wisconsin week chautauquas will be held by the University Extension Division during the summer of 1916 in twenty or more cities of the state. The program which is now being planned will include the following: University Regimental band, Milton college Glee Club, Dvorak concert party, colored quartet from Hampton institute, Virginia, Waldemar von Gelich of the University Music school, Faust operatic company of Chicago, Prof. M. Vincent O'Shea and Prof. A. B. Hall of the University of Wisconsin, Prof. Stump of the University of Indiana, Miss Helen Keller and her teacher, Miss Ann Sullivan Macey, Mrs. C. P. Carey, who will speak on "The Exceptional Child," Prof. B. L. Newkirk, geoscientist, of the University of Minnesota and Clarence Burgdfer, humorist of Battle Creek, Michigan.

Twenty cities, ranging in size from Bloomington, with a population of about 600, to Superior, second in size in the state, were included in the list of cities holding chautauquas last summer, and practically all of them will be on the list for next summer. Racine, Madison, La Crosse, Tomah, Grand Rapids, Stevens Point, Sheboygan, Ripon, Shawano, Antigo, Tomahawk, Ladysmith, Bloomer, Rice Lake, Bayfield, Rhineland, Delavan and Evansville were among the towns which held chautauquas last summer.

Each community entering the chautauqua circuit guarantees \$1,000. For this sum the university sends to the community a large sized tent with platform, chairs and electric lights, a canvas fence to enclose the tent, a corps of four workers to remain in the community for six days and give platform talks, conduct round tables and lead in community singing, display educational motion pictures, tell the children stories and teach them games, and two popular educational programs each day for six days, including lectures and musical numbers.

**WANT FREE MAIL DELIVERY**  
Farmers in the vicinity of Eagle River are endeavoring to secure rural free mail delivery and indications are that the government will grant their petition.

The hunting party consisting of Alex. McEae, A. Sievwright, Walter Brown, W. A. Brown, Frank Kretlow and Dr. C. B. McIndoe returned Monday from the annual hunt in the vicinity of State Line. Five bucks represented the spoils of the chase.

## A Thanksgiving Poem

THANKFUL each morn, for the bright light of day;  
Thankful for interest in work and in play;  
Thankful for those who e'er greet me with love;  
Thankful for white clouds and blue skies above;  
Thankful for raiment and thankful for food;  
Thankful for bird-songs, and flow'rs in the wood;  
Thankful for showers to freshen the earth;  
Thankful for sweet sounds of gleeful child mirth;  
Thankful for e'en Sorrow's softening touch;  
Thankful for little and thankful for much;  
Thankful for snowfalls, so peaceful and white;  
Thankful for moonlight and dark, restful night;  
Thankful for laughter and thankful for tears;  
Thankful for each of the lengthening years;  
Thankful for all Thou hast given to me—  
Heart that can feel deep, and eyes that can see.

ONEIDA WINS FIRST PLACE  
AT MARINETTE POTATO SHOWCounty Scores Over All Other Ex-  
hibits With a Safe Margin  
Of Three Points

(Contributed by W. D. Juday, County Representative.)

The 1915 State Potato Show is over and again Oneida county demonstrated by the prizes won that she is at the front when it comes to the production of high class potatoes. Our county exhibit won first place over all other counties with a safe margin of three points. For this, we received a beautiful silver cup and a large banner. We also took first prize for having the best decorated booth and a beautiful silver cup is the prize given for it. Besides these prizes different Oneida county growers were awarded first in Rural New Yorkers, the largest class at the show, first in Cobblers, second in Triumphs, second in Early Rose, and fourth in Early Ohio.

This last show was the best by far of any previously held. People from all parts of the country were in attendance. Hundreds of visitors viewed the exhibits each day and expressed their surprise that such fine potatoes could really be produced. A strong program had been arranged and was carried out almost to the letter. Valuable points concerning the different phases of the potato game were forcibly brought out and no one hearing them could help but be benefited thereby.

To the farmers of the county must be given the great credit for the winning of this county prize. They took the time and the care to pick out this prize stock and our showing at Marinette is a good indication of the thoroughness of their work. The Advancement Association too was an important factor. They helped us make a success of the County Potato Show and it was

the exhibit stock of this show that we took to Marinette. The county board is deserving of credit for their appropriation to this work. No matter how good our potatoes, we must have the county board's help before we can put them on exhibit. For the arrangement of the booth we can thank Mr. Weisman. He offered the services of Mr. Friedman for this work and no one who saw our county exhibit can say that our prize potatoes were not shown to the very best of advantage. It is another case of the county as a whole co-operating and by all working together, we can win at any show.

One of the most significant facts brought out at this show is that Oneida county can, and does produce potatoes of the highest quality of any found in the State of Wisconsin. People in other parts of this state and also in other states are learning of this and in the future Oneida county will get many new settlers through this influence alone.

The farmers have done well to bring about this big improvement in potatoes but they should remember that there is an opportunity for still greater improvement. Every farmer in the county should grow only pure varieties of potatoes and then keep them as free from disease as possible. The four important factors in successful potato growing are soil fertility, early planting, treating of seed and spraying with Bordeaux mixture. When every farmer looks well to these we will have a county as well known in the U. S. as it is now in the state. The thing to do next is to plan for that crop which will win the prize at the 1916 show.

## RED CROSS SEAL SALE BEGINS

Next week the campaign for the sale of the Xmas seals begins. The V. N. A. has charge of the sale and half the proceeds go into its treasury for local charitable work.

The other half goes to the Wisconsin Anti-Tuberculosis Ass'n. of Wisconsin. This association is doing a fine work in the stamping out of the white plague in our state. There are

2,350 deaths yearly in Wisconsin from tuberculosis and this association is cutting this number by one every 53 hours. A year ago it was only one every 63 hours. Let us all help in this great work by responding generously when called upon. After you have bought seals, kindly paste one on the front door and you will not be solicited again.

## TRAIN WRECK

Traffic over this end of the Northwestern line was tied up several hours Wednesday forenoon due to a freight train wreck near Malvern. Train 289, north bound, left the track, several cars going into the ditch. The wrecking crew from Antigo was dispatched to the scene and had the track cleared at noon. The cause of the wreck could not be ascertained. No one was injured. The south bound passenger train due at 10:26 a. m. was delayed here forty minutes on account of the accident.

## GOULETTE-CHRISTIAN

Miss Rose Goulette and Fred Christian were joined in matrimony at 8:15 o'clock Tuesday morning at St. Mary's church, Father Beaudette officiating. The attendants were Miss Emma Goulette and Edward Brusoe. The young couple will make their home in this city, the groom having a position with the Rhineland Paper company.

**MANY GET FREE POULTRY**  
Poultry raffles have been in vogue in several Rhineland saloons the past week and in this manner scores of chickens, geese and turkeys have been disposed of.

CAMPBELL WINS  
SEVERAL PRIZESThree Lakes Man Captures  
Silver Cup At Marinette  
Potato Show

At the Marinette Potato Show Oneida county won first place with her exhibit of potatoes as well as first place with the best decorated booth. These two prizes will give Oneida two beautiful silver cups of which all can be justly proud.

Besides winning these county prizes Oneida also had to her credit first place in the Rural class, the strongest class of the show. This was won by Mr. Campbell of Three Lakes and a beautiful silver cup goes with it. Mr. Campbell also won first place in Cobblers and second in Triumphs. Art. Blumberstein of Woodruff won second in Early Rose and Willis Jewell of Crescent fourth in Early Ohio.

Marinette, Wis., Nov. 19.—The Wisconsin Potato Growers' association closed a three day session here this afternoon with the election of J. H. Hicks of Prentice, as president; E. Woodard, Madison, vice-president, and J. E. Millward of Madison, secretary.

**Two Want 1916 Meet**  
Chippewa Falls and Merrill were the two leading candidates of the 1916 convention, but decision on this question was left with the executive committee.

Oneida county and Rhineland, county seal, captured first both on potatoes exhibited and design and arrangement of county booth. They were awarded two silver cups and an art banner.

**Other Prize Winners**  
Other counties exhibiting took places in the order given: Waupaca, Wood, Lincoln, Barron, Langlade, Marinette, Forest, Sawyer, Dunn, Oconto, Taylor, and Rusk. Oneida county scored 93½ out of a possible 100 on quality of potatoes. Senator Stephenson visited the show today and ate a dinner made up entirely of potatoes in various forms.

## ON WEDDING TRIP

Mr. and Mrs. Hervey Johnson of Stevens Point were here this week on their wedding trip and were guests of his parents on the south side. The young couple were married in Stevens Point last week. Mrs. Johnson was formerly Miss Grace Abh, a popular young lady of that city. Mr. Johnson is in the employ of the Soo line on the Chicago division and is in line for promotion to freight conductor. His numerous friends in Rhineland congratulate him on his marriage.

Before returning to Stevens Point Mr. and Mrs. Johnson will visit in St. Paul and Minneapolis.

WILL CELEBRATE  
SILVER WEDDING

On Thanksgiving Day Mr. and Mrs. Sam G. Perinier, who are old and well known residents of Rhineland, will celebrate the twenty-fifth anniversary of their wedding. They have arranged to entertain a number of relatives and friends at their home, 710 Randall Avenue and an old fashioned Thanksgiving dinner will be one of the features of the occasion.

Mr. and Mrs. Perinier were joined in wedlock in Superior. From that city they moved to Ashland where they lived many years before coming to Rhineland. They are the parents of one son, Maurice, who is a traveling salesman. He will be with them on their silver wedding day.

MORAN CUTS COST  
OF OIL OFFICE

B. N. Moran of this city, state oil inspector, issued a statement from Madison a few days ago in which he claimed that the cost of work in his department had decreased since he assumed the reins of office.

Moran said that although the work of his department had considerably increased, the cost of inspection of oils had been cut and that he was planning to reduce the number of his deputy inspectors and increase the efficiency of those retained.

The basket social which was given at the Harshaw school last Saturday evening was well attended and everybody reported a very good time. The proceeds will be used for school purposes.

BADGERS LOSE  
TO THE GOPHERS

Fast, snappy playing, excellent generalship and surpassing teamwork put the Minnesota university football team in the championship position of the Big Nine conference and sent Wisconsin to defeat, 20 to 3 in Madison Saturday.

It was a hard won victory for the Gophers, terrific speed of both teams bringing out spectacular plays from the kickoff to the last play.

While Minnesota made some splendid gains on forward passes, this form of play was broken up time and again by interceptions by both teams.

It seemed during the first period that the Badgers were going to overwhelm the husky Gophers by their wonderful speed. They put up a plucky game, but were outclassed and perhaps slightly unnerved by the collapse of the temporary stand at the north end of the field. After the first display of brilliancy, it was clearly Minnesota's game.

**Bleachers Collapse**  
Nothing short of a miracle averted a catastrophe at Camp Randall Saturday afternoon when two sections of the north circus bleachers collapsed under the weight of 3,000 spectators at the Minnesota-Wisconsin game. According to reports from Madison hospitals, ten persons were injured, none of them mortally. The list is incomplete, as many of the injured were taken to their homes in automobiles.

WARRANTS FOR  
TWO SALOON MEN

Warrants have been issued for the arrest of two Rhineland saloon men, but up to the present time have not been served, it is said. The men are alleged to have violated the city ordinance Sunday by failing to remove screens and other obstructions, which would permit a full view of the interior of their saloons. Members of the W. C. T. U. made an inspection of the saloons Sunday afternoon and the warrants were secured as the result of their inspection.

## DANCING SCHOOL

At St. Augustine's Guild hall this evening will be held the first of a series of dancing parties to be given each Thursday evening throughout the winter for the benefit of St. Augustine's church. Mr. L. C. Batdorf, dancing master, will give instructions at these parties.

A dancing school for children will be established at the Guild hall Monday afternoon next and will be conducted each Monday afternoon thereafter from 4 to 6 o'clock. Mr. Batdorf will be in charge of the class and Mrs. E. O. Brown will act as chaperone.

## TEACHERS LEAVE

The following city teachers will spend the Thanksgiving vacation out of the city.

**HIGH SCHOOL.**  
Miss Esther Lampert, Antigo.  
Miss Leona Lampert, Wausau.  
Others of High school force remain here.

**GRADES**

Miss Doly Fryola, home in Hurley.

## STATE READY TO HELP TEACHERS

Supt. Cary Writes That He Is Prepared To Give Aid By Correspondence

To Superintendents, Principals and Teachers:

The State Department of Public Instruction is this year arranging for an extension of its work in answering questions, suggesting methods and plans, and generally giving educational help by correspondence.

You as a teacher or administrator and many problems of fact or method, the solution of which would materially advance your work. Questions of discipline, school beautification, reference material in geography, history, etc., school sanitation, school library, gymnastics, domestic science, community work,—to name only a few of many—are likely to come up and affect the quality or spirit of your teaching.

Here at Madison we have advantages in our nearness to reference material and authorities for consultation. These authorities include not only state officials, but also the faculty of the state university, Prof. M. V. O'Shea of the department of edu-

cation in the University of Wisconsin has offered to make a similar study of any live educational problems that the state department of education asks to have investigated. Our inspectors are keeping constantly in touch with school conditions and needs and have worked out and tested remedies for many bad conditions. This knowledge is at the service of all workers in education in the state of Wisconsin on application.

You are therefore invited to send your educational problems for solution through our school service work. This department wishes to express to you personally its willingness and desire to do what it can through correspondence for you as a teacher, principal, or superintendent.

Please make any questions sent in as definite as possible. If you will kindly place on the lower left hand corner of your envelope the words "School Service" it will save time for us, as the letter will thus immediately go into the proper hands.

The aims of our school service work are:

1. To give individual professional help to teachers in service throughout the state by correspondence, bulletins, and visits.

2. To use statements of difficulties of teachers as foundation for the compiling of state educational bulletins which will be of practical benefit to teachers.

3. To direct teachers to bulletins and other helps published by this and other state departments, universities, commercial organizations, educational foundations, and the national bureau, from which they may obtain free, or at small cost, useful

and valuable information to improve their work.

4. For the better carrying out of our aim three, to cooperate with other state departments, universities, etc. in the issuing and exchanging of bulletin facilities.

5. To cooperate for the better carrying out of aim one, with superintendents for supervision, inspection and suggestion; with state inspectors for requested visits of inspection and suggestion; with extension officials for correspondence work; with institutes, community organizations, mothers' clubs, etc. for general community help.

6. To make, in part at least, the work of arranging, digesting, and classifying material, of compiling answers to questions, and of developing questions asked into bulletins of information a supervised practical training in educational laboratory work for advanced students of education.

There is nothing new in this plan of school service, except that the office is now better equipped to invite and encourage such correspondence than in the past. A member of the staff, Miss Janet R. Rankin, will take charge of this work. Miss Rankin is a university graduate, has since graduation studied for a year at Columbia and New York Universities, and has also done graduate work at the University of Minnesota. During the past year she has organized and conducted a school service bureau, similar in aim and method to the work herein described, at the River Falls State Normal School. The success of this work has pointed the way to its extension to the state at large.

I trust that the school service work in this department will amply justify the special provision made for its carrying on. Yours truly,

C. P. CARY,  
State Superintendent.

## EVENTS OF WEEK IN NEARBY TOWNS

### Phillips—

It is said that the carcass of a doe deer is hanging in the woods about twenty miles northeast of this city. It was evidently shot by mistake. A card hangs to it upon which is something like the following: "Take this if you want it, I can't; the State of Wisconsin bars me." It is feared that a large number of female deer will be killed by hunters this fall and left in the woods to go to waste, as hunters will not take a chance with the law after killing a doe.

### Hayward—

The first of the payments of the \$500,000 allotment to Indians of the Bad River reservation and those enrolled there but living elsewhere, has been made, a total of \$23,000 having been paid out by the government to those deemed capable of caring for the money. This was paid to 30 Indians. The others on the roll of 545 will get their shares later.

### New London—

As a result of the inspection of the concrete road between Depere and Green Bay, made by all of the Outagamie supervisors, a straw vote showed a unanimous desire to put the question of bonding the county for \$500,000 for good roads up to the people. If it carries the matter will be taken out of the hands of the board and put into the hands of the people. It will be necessary to require 800 signatures to a petition asking that the matter be voted upon in the spring.

### Iron River, Wis.—

Calvin D. Rogers, with his sons, and nephew, Clarence Mead, have a hunting camp down near Tarr's place, in the vicinity of the Eau Claire Lakes, and during his rambling through the woods Clarence Mead ran onto a bear's den. The boy was game and he opened fire and succeeded in killing the mother and one of her cubs after an exciting fight. His shooting attracted other members of the hunting party and they came to his assistance and dispatched two more cubs.

### Marquette—

That portion of the Girard Lumber company's logging railroad which runs from Girard Junction to Dunbar, connecting the Milwaukee road at Girard with the Soo at Dunbar, has been sold to a new corporation called the Dunbar & Wausaukee Railway company. It is formed by Wells and Culbertson interests of Menominee. The price was \$120,000. The road, built for logging, has developed freight and passenger business through the fact that it connects the other two railroads.

### Grand Rapids—

When a Marshfield policeman arrested a strange motorist for having jumped a board bill the man asked permission to step into a nearby store to secure a loan to cover the bill, leaving the car in charge of the policeman to insure his return. However, he failed to come back and upon investigation it was found that the car had been stolen at St. Croix Falls. The thief escaped.

### Gladstone—

George Hardwick, aged and gray from his fourteen years in prison at Marquette, has returned to his home at Stonington after being granted a pardon by Gov. Ferris. D. A. Oliver of Escanaba has been named his guardian for the rest of his life. Fifteen years ago Hardwick was convicted of killing a neighbor. Relatives say that Hardwick killed the man in self-defense.

### Stevens Point—

If one smoker had to smoke all of the cigarettes that went through Stevens Point on the Soo line Tuesday, there would be no doubt about his coffin being so full of "nails" that there would be little room left for him. Freight train No. 21, among other shipments, carried three car loads of cigarettes bound from the east to the Pacific coast, where they will be shipped across the Pacific ocean probably to China. If China is the destination of this large consignment of "pills" it is pretty good proof that "the Chinese smoke a large quantity of American made cigarettes."

### Florence—

Charles Huttigren, aged about 54 years, a Homestead farmer disappeared from his home Friday morning, Nov. 12, and although a diligent search has been made no trace of him has been found at this writing. He arose before 6 o'clock Friday morning and went out to the barn to attend to his usual morning duties. He then returned to the house and went to the room where his sons were sleeping, a very unusual thing for him to do, but he did not say anything to them. He then left the out and strange to say, no one has been found who has seen him since house but was not noticed in going although there are a number of farmers who reside in that vicinity.

### HER SON SUBJECT TO CROUP

"My son Edwin is subject to croup," writes Mrs. E. O. Irwin, New Kensington, Pa. "I put in many sleepless hours at night before I learned of Chamberlain's Cough Remedy. Mothers need not fear this disease if they keep a bottle of Chamberlain's Cough Remedy in the house and use it as directed. It always gave my boy relief." Obtainable everywhere.

### FEW SMALLPOX CASES

Smallpox, although prevalent in parts of Wisconsin, is being kept under control through activity of the state health department. For the first ten months of this year 1415 cases were reported. In the first nine months five deaths were reported. Last September only twenty-three cases were reported, and in June fifty-six. Not for several years have the monthly reports of cases been so few.

### 4,868 STUDENTS AT U.

One fifth of the students in the University of Wisconsin are registered in the College of Agriculture, according to the latest report. Of the 972 in this college, 695 are taking the regular four-year course in agriculture, 116 are taking the middle course, and 261 are enrolled in home economics. The report shows a decrease of 119 from the number of students enrolled in the College of Agriculture at the same time last year.

The final total of 4,868 students at the University of Wisconsin this year is a decrease of four students from the enrollment at this time last year. An increase of 185 students is reported in the College of Letters and Science. The schools of law and medicine have also grown slightly, but the College of Engineering reports a decrease of 62.

The course in Commerce, with 542 students, gained 73 students. The Course in Journalism, enrolling 120, gained 16 students; the Course in Chemistry, enrolling 93, gained 24; and Pharmacy, enrolling 36, increased by 4.

### NOW LOOK OUT

When a cold hangs on as often happens, or when you have hardly gotten over one cold before you contract another, look out for you are liable to contract some very serious disease. This succession of colds weakens the system and lowers the vitality so that you are much more liable to contract chronic catarrh, pneumonia or consumption. Cure your cold while you can. Chamberlain's Cough Remedy has a great reputation. It is relied upon by thousands of people and never disappoints them. Try it. It only costs a quarter. Obtainable everywhere.

## MAY BOX O'DOWD

Billy Perkins and wife went to St. Paul Friday and will remain several weeks in that city. Billy hopes to get a bout with Mike O'Dowd, who is widely known throughout the northwest as a middleweight of exceptional ability. The match, if arranged, will no doubt be pulled off some time in the forepart of December. If unable to meet the St. Paul boxer the local boy will endeavor to take on some other prominent pug as Billy declares he is only after the big ones now.

### WOMAN KILLS DEER

W-B CUT CHEWING MEANS MORE COMFORT—MORE SATISFACTION. IT COSTS LESS BECAUSE YOU USE LESS TOBACCO! A LITTLE CHEW SATISFIES.

A MAN who uses only ordinary tobacco would probably never kick if somebody changed brands on him. But W-B CUT Chewing—the Real Tobacco Chew, new cut, long shred—is so different from ordinary tobacco, so much more satisfying that nothing can take its place with a man who knows. Get a pouch of W-B CUT Chewing and give it a quality test. You can tell. Notice how the salt brings out the rich tobacco taste.

MAKING FOUR-HORSE EVENER

Illustration Shows Arrangement Often Desired at Plowing Time—One Horse Worked in Furrow.

A four-horse evener without side draft is often wanted at plowing time. We give here a description of a good arrangement of this kind furnished us by Mr. J. F. Krens, Woodville, Wis. The cut will show how the evener is made, and the measurements are as follows:  
Two doubletrees of ordinary length, a good tough stick of which to make the long evener, two iron pulleys which will let a strong small link chain work through them, two bolts to go through the pulleys, and two strap-iron braces over the pulleys, will be needed. The stick for the evener should be 5 feet 4 inches long, and the first pulley will be put on 7 inches from the right end of it, measuring to center of pulley. Measure 15 1/2

Evener to Prevent Side Draft.

inches from the center of this pulley and bore hole for the plow clevis. Now measure 30 1/2 inches from the right end of this evener and bore hole for second pulley bolt so that the two pulleys are 24 inches apart.  
It is best to bore two or three holes at the left end of the long evener. Put the first one 3 inches from the end and the others 2 and 4 inches farther in. This evener works one horse in the furrow and three on the unturned land with no side draft, say those who have used it.—Wisconsin Agriculturist.

TRYING FARM HELP PROBLEM

Hired Laborer Should Be Moderately Intelligent and Well Informed—Keep Children on Farm.

The requirements of the farm in the character of the labor employed are changing radically. The labor to be performed by the farmer should be governed by extensive information and considerable scientific knowledge. A successful farmer at the present time may need considerable knowledge of chemistry, of bacteriology, of economic entomology, of the pathology and physiology of plants and animals; of plant and animal breeding, of fungicides and insecticides, of the conservation of soil moisture; of botany, pomology, viticulture, horticulture, and certainly much concerning the practical handling and marketing of his products. The hired laborer does not need to know so much, and yet he should be at least moderately intelligent and well informed. With regard to the future, the forecast is that farm labor will not be recruited in appreciable degree from the city. The farmer would not need to get his labor from the cities if he could hold the country population to the soil, and the recognition of the importance of retaining the children on the farm and of keeping country labor from migrating to cities is governing most of the work by nation and state in behalf of agriculture. In addition to efforts to promote economic improvement, many agencies are at work upon the country people to improve their home life, and their social activities, which are already beginning to count against the unpleasantness of country life and in favor of making it attractive.

INFERTILE EGGS KEEP BEST

Large Poultry Plants Seldom Have Male Fowl on Place—Essential to "Swat the Rooster."

(By J. A. HELMBREICH, Colorado Agricultural College.)

Many people think that the cocks have to be with the hens in order to get eggs. This is a mistake and has been demonstrated as such by experiments and practice, for the large poultry plants seldom have a cock on the place and their hens will actually lay more eggs without the cocks around. I do not advise you to kill or dispose of valuable breeding stock, but merely separate them from the hens. When we stop to consider that there is \$600,000,000 worth of poultry sold by our farmers annually, and that this amounts to as much as the money received for wheat or hay; that 8 per cent of all the eggs sold are lost through careless handling, and that a large per cent of this loss is due to the production of fertile eggs during the hot months of the year, it is easy to see how essential it is to "swat the rooster."

Weeds.  
A very erroneous idea is prevalent among a great many farmers that a crop of weeds turned down is as good as a coat of manure. They are of as much value as a coat of shavings from a planing mill. The only thing I know they are good for is to furnish a splendid place in which the moths may lay their eggs for a big crop of cut worms the following spring and summer.—G. B. R.

Near and Convenient.  
The garden should be near the house so as to make the gathering of vegetables convenient.

BETTER FARMING-BETTER BUSINESS-BETTER LIVING

"This is one of the most valuable bulletins that has come to my desk in a number of years. I should like to reprint it in our columns. If you will send the photographs we will have cuts made at once and return the pictures to you within three or four days."

This is the estimate which the editor of one of the important farm papers in the Middle West places upon "First Aid to the Settler," a bulletin just published by the Agricultural Experiment Station to aid the settlers in Upper Wisconsin in clearing and farming their lands.

While much of the information given in this bulletin applies to the man who has ample funds at his disposal, it is written primarily for the man of small means and is intended as a guide to help him in getting a start on cut-over land in Northern Wisconsin. The man of experience may find that there are discussed in this publication matters which are clear to him, while persons with little or no farm experience, under Wisconsin conditions will find that the bulletin will be of great service to them.

The author of the bulletin has spent much of his life among clearings in Upper Wisconsin and gives information not only from his experience but also from close observation. As long as the edition lasts, copies will be sent to residents of the state who apply for them.

We don't hear much lately about the loneliness and isolation of the farm. The farmer and his family have in the automobile the best means of recreation and pleasure ever devised.

We can hardly realize the tremendous social and recreational value of the automobile in the country. The interests of farm people have been broadened and their sympathies quickened. They have a much broader outlook and a deeper understanding than the average man in town. Their acquaintanceship is as wide as the country and wider; they are citizens of a state instead of a school district.

Hurrah for the automobile! It is one of the most important of farm machines.—Prairie Farmer.

1915 has been a good year on the Wisconsin farm. Those who have carefully considered all the elements of the situation can find no other conclusion. The pastures that constitute the vertebrae of the animal industry have been supreme and the meadows which cover an acreage greater than that devoted to any of the cultivated crops have given abundant yield for Wisconsin, which would be a superabundant yield for other states.

The government crop reports give Wisconsin an oats yield of 47 bushels to the acre. The probability is that the actual yield is considerably above that figure, for Wisconsin reports are noted for being conservative, especially when the yields are large. The Wisconsin oats crop occupies an acreage much greater than that devoted to any other cultivated crop.

All the other crops are large with the single exception of tobacco, and that occupies but a small acreage. So it is evident that the Wisconsin farm is doing its full duty this year—as is always the case.

At the present rate of progress Wisconsin will have continuous good roads in about fifty years—if none of them wear out in the meantime. Perhaps our grand children will have what we have claimed to want for years—good roads all over the state.

In the meantime the farmers of the state will lose money by trying to save it on road building. There is no getting away from the fact that team, harnesses, vehicles owing to millions of dollars are annually represented in wear and tear upon poor roads. Other millions of dollars are lost in time spent in marketing crops over poor roads. Still other millions are lost in not being able to market produce when good prices and poor roads prevail at the same time.

We want good roads. Some of us spend dollars worth of time arguing whether we should invest fifty cents or thirty cents per year in them—that is what the contest has amounted to during the last year. The powers that were arranged for fifty cents worth per capita per year, and the powers that he reduced it to thirty cents worth. Ten dollars per capita for five years would make all our main traveled roads of macadam, and fifty cents per capita per year would keep them oiled. And we say we want good roads.

GENERAL FARM NOTES

- Be master of your own barn.
- Study rations for each cow.
- Grow your own feeds to the utmost.
- Milk comes by invitation, not force.
- Seek June conditions in feeding in December.
- Tickle the cow's palate and increase production.
- Study the whole problem from a business standpoint.
- Test, weigh, weed out. The margin of profit allows no guess work.
- Brains in the milk pail insure quality, quantity, and cleanliness.
- More sunshine for the big producers, more fresh air for the whole herd.
- No man can succeed by being simply a machine capable of performing so much labor.
- Be content with nothing but reaching after more.
- Clean every particle of fertilizer out of the drill before putting it away, or the parts will rust.
- Good cows are never cheap, are hard to find and harder to buy. Re-enforce your dairy from your own best cows.
- Do not be cursed by feeding a mass of stuff under the name of mixed feeds, made we know not how.

Gruen "Wristlet" Watches

The convenience, practicability and attractiveness of Wrist and Bracelet Watches make them particularly desirable, and fully justify their popularity.

We show them in silver, gold filled and solid gold, and most of them with extension bracelets. Some are engraved or chased, others are perfectly plain and can be engraved to suit your own fancy.

Price  
Gruen Metal, \$3.50 upward  
Silver, from \$6.00 upward  
Gold Filled, \$8.00 upward  
Solid Gold, \$35.00 upward

The movements in these watches are of the celebrated Gruen manufacture, guaranteed to be the best obtainable for the price and entitled to our endorsement. Many of the moderate priced watches are our exclusive designs and there are no duplicates of the elaborately jeweled and more expensive ones. The prices, however, will be found no higher than those often charged for commonplace and less worthy articles.

## A HEART TO HEART TALK REGARDING THE "JOHN KELLY" SHOES.

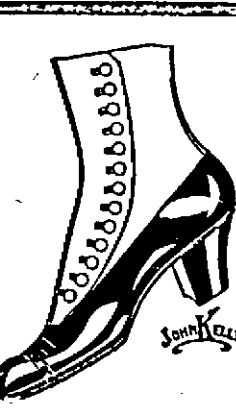

How often and very often at that--does it happen to you that you go into a store and purchase a pair of supposed to be good fitting shoes, but after you have worn them once or twice you were compelled to cast them aside--never again to wear them any more?

What Became of the Good Money You Paid Out for These Shoes? Hard telling, but it is a cinch that YOU and YOU ONLY have been the real loser. Not only did you lose the price of the shoes, BUT you have also lost FOOT COMFORT for some time to come, BECAUSE a shoe is merely a corset for the feet, and the feet should be shaped with a good fitting shoe the same as the body is shaped with a good fitting corset, and once the shape is hampered with an ill fitting article it takes some time to get it back to the proper shape, and thereby also causing a lot of agony and worry.

A pair of "John Kelly" Shoes properly fitted, will avoid all the foot ailments that an inferior brand of shoes will create. We show beyond a doubt the GREATEST line of RELIABLE FOOTWEAR IN ONEIDA COUNTY. We specialize in the famous "John Kelly" Shoes at prices NO HIGHER than you are now paying for much inferior grades.

Let Your Next Pair of Shoes Be a "John Kelly"

## FLORA DE VOSS ALL NEXT WEEK

Among the popular comedy drama successes that will be presented by Miss DeVoss, and her popular company, at the Grand Opera House next week will be "The Girl From Out Yonder," the opening play Monday eve. Molly and I, The Whirlpool, The Invaders, The Devil's Web, a grand costume play, The Cry Baby. In the opening bill Miss DeVoss has a role which is well suited to her peculiar comedy. The plays this season have been carefully selected in order to give Miss DeVoss, an opportunity to display her ability as a popular comedienne as well as an emotional actress. During her engagement she will wear some very costly foreign pattern gowns of which she has many. Mr. Rotnour.

her manager, is overly proud of the cast assisting Miss DeVoss, as he has but the one attraction on the road this season and has combined the strength of two companies in one. A special feature is the feature vaudeville between acts, among them are the Bergers, famous cabaret dancers and entertainers. They will introduce Monday eve. The Russian Cassock Whirlwind dance in costume together with Miss Berger, in fancy toe dancing. These vaudevillians have been engaged as a special attraction and have proven an act of exceptional drawing power. Other vaudeville between acts, by Mr. Curtis Mr. Keenan, Mr. Craig and Miss Claire Williams. Friends and patrons of the company, may look forward to a week's engagement of high class and refined amusement on an exceedingly low scale. All tickets selling in advance at Sorenson's jewelry store. Telephone orders will be accepted and held until 8:15 p.m.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by HIGGINS CATARRH CURE. Send for circulars free.

## OLDER BUT STRONGER

To be healthy at seventy, prepare at forty, is sound advice, because in the strength of middle life we too often forget that neglected colds, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.  
To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Emulsion which is a food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No alcohol in Scott's.

Spencer Brown and John Wesley attended the Wisconsin-Minnesota football game in Madison Saturday.

Attorney Jeff Redfield of Green Bay will spend Thanksgiving at his home in this city.

Mr. and Mrs. E. J. Slossen returned Saturday from Wausau where they were guests of Mrs. Ida Alderson.

Mrs. James Winter, who has spent several weeks with relatives here, departed Monday for her home in Waukesha.

George Weichman left Saturday for Stevens Point where he has accepted a position with the Soo railway company.

A. B. Wilson has returned from a trip to St. Paul. Mr. Wilson contemplates accepting a position in Marshfield, his former home.

J. B. Rotnour and the Flora De Voss company were in the city Sunday. Next week the company will fill an engagement at the Grand Opera House.

James Duket, international revenue collector, is taking a short vacation from his duties and is spending the time in this vicinity and incidentally doing a little hunting.

Adolph Urbank came up from Appleton Junction Saturday to visit his parents, Mr. and Mrs. A. G. Urbank. He holds a position with the Northwestern line in Appleton Junction.

Mrs. Charles Peters of this city underwent an operation at the Mayo hospital in Rochester, Minn., two weeks ago and is said to be nicely recovering. Her health has been poor for some time past.

C. H. Stevens returned to Milwaukee Friday with a 150 pound spike-horn buck. Mr. Stevens, who is a leading Milwaukee barber, thinks Oneida county is a great country and plans to come here annually for deer hunting.

William Lathrop of Tomahawk Lake was in the city Monday. He has just returned from Chicago where he spent a number of weeks with Mrs. Lathrop who was critically ill. She is now at home and said to be regaining her health.

Several well known young men of this city have organized a club and have leased apartments over the Herbst shoe store for club rooms. The rooms have been fitted up with comfortable furniture and a kitchen has also been equipped.

The many friends here of Joseph Spoerl, ex-sheriff of Langlade county will sympathize with him in the death of his wife. Mrs. Spoerl dropped dead in the lobby of an Antigo theater.

Francis Hildebrand, who for several weeks has been in Iowa traveling for the St. Louis Casket company, returned to this city Friday. He expects to be assigned to new territory in one of the southern states, probably Texas.

Oscar Ameringer, the great socialist leader of Milwaukee, spent a couple of days in this county this week the guest of S. G. Perinier and Charles Neue on a deer hunt. He succeeded in killing a 150 pound buck. Mr. Ameringer has purchased a tract of land near Lake George and will build a summer home there. He expects to spend his summers there and do most of his literary work in the cottage.

## VICTOR LINLEY DIES SATURDAY

Victor Linley, whose death occurred Saturday in a Cincinnati hospital had a number of friends in Rhinelander and throughout this vicinity. He was a member of the Wisconsin vice commission which visited this city nearly two years ago while investigating moral conditions in this state.

Mr. Linley was for twenty-four years prominent legally and politically in Superior and author of the famous Linley law for the abatement of immoral resorts.

He served one term as mayor of Superior, was a member of the state senate in the sessions of 1911 and 1913 and at various times was on the city council and county board.

In the state senate he was active as a reformer and took a leading part in framing the law providing for a state vice commission of which body he later became a member.

He was born in Alchinson, Kans., fifty years ago, was graduated from the Kansas university and Columbia law school and entered the practice of his profession at Omaha. Later he went to Minneapolis, where he remained for some years before coming to Superior.

ADVENT BEGINS DECEMBER 5  
Advent, a holy season of the Christian church, the period of preparation for the celebration of the nativity of Christmas, begins this year on December 5th. This season continues until Christmas Eve. With the view of directing the thoughts of Christians to the first coming of Christ as Saviour, and his second coming as Judge, special lessons are prescribed for the four Sundays in Advent. From the sixth century the season was kept as a period of fasting as strict as that of Lent; but in the Aneglical and Lutheran churches the rule is now relaxed. In the Roman Catholic church Advent is still kept as a season of penitence. Dancing and festivities are forbidden, fasting enjoined and purple vestments are worn in the church services.

ONE ON THE W. N. G.  
The Chicago Tribune advertises itself as the "world's greatest newspaper," and it is a pretty good newspaper. But even so, it is not always ahead of the always modest Stevens Point Journal. For instance: The Tribune today contained a "special dispatch" from Rhinelander in which the story of how burglars entered the Soo depot at that place, took a 400 pound safe, carried it through a window and 300 yards up the track and then blew it open.

The same news item appeared in the Journal nearly two weeks ago.—Stevens Point Journal.

EUGENIC TEST NOW ONLY \$2  
Since October 12, this year, under the statutes relating to marriage and venereal diseases the recent legislature enacted that an examination fee of two dollars was the maximum amount a physician could charge.

The law is taken from Chap. 525, enactments of 1915, and reads as follows: "Such examiners shall be phys-

cians duly licensed to practice in this state. The fee for such examination, to be paid by the applicant for examination before the certificate shall be granted, shall not exceed two dollars. The county or asylum physician of any county shall, upon request, make the necessary examination and issue such certificate, if the same can be properly issued, without charge to the applicant, if said applicant be indigent."

### PROMOTION FOR ED. DONER

Ed. Doner, of Antigo, has been appointed assistant superintendent of the Ashland division of the Chicago and Northwestern railway, succeeding W. F. Welker, with headquarters at Ashland. Mr. Welker has been transferred to Delplain, Iowa, at his own request on account of ill health. John Walliser has been appointed trainmaster, succeeding Doner.

Mr. Doner began his railroad career in the train service of the old Lake Shore road. He fired on the switch engine in the Rhinelander yards twenty-five years ago. His friends here are pleased to learn of his advancement.

We can see King Turk's finish today.

Started to do any Christmas shopping yet?

What have you done for the poor and needy this Thanksgiving?

Oneida county has every reason to feel chesky over its showing at the Marinette potato convention.

Everyone of us has something to be thankful for. Why not go to church today and offer up thanks in the proper way?

Although turkeys sold for 30 cents per pound, many local dealers say they were unable to supply the demand. Another indication of prosperity in Rhinelander.

An exchange remarks that an editor has figured out a good way to commit suicide. He deplores the old way of leaning on the double barrel shotgun and pulling the trigger or blowing out gas. He would simply get out an issue of the paper in which he told the exact truth about everyone in town, and then await the end. There is one satisfaction in this manner of getting rid of the world. He would not last long as the mob would tear him to pieces. What an interesting paper he could get out? Eh, what?

## TAX LAW CHANGES

P. J. Cain, county treasurer, calls the attention of the public to the following changes in the tax law:

Under chapter 140, laws of 1915, extends the time for town treasurers to remit to county treasurer state tax monies from the second Tuesday in February to the first Monday in March. Settlement of county tax has been extended from March 15 to on or before March 22. Tax sale date has been changed from the third Tuesday in May to the second Tuesday in June.

## CHARITY BALL BIG SUCCESS

The Charity ball, held at the Armory last Thursday evening was the social event of the season. The number present was considerably less than in years previous but, due to that fact those who went had a much better time, as the floor was at no time over crowded.

The Armory was tastily decorated by the committee of ladies in charge. All around the wall stood small pines to the height of five or six feet. The orchestra was screened in by the pines and could be well heard but not seen. Branches of cherry blossoms gave a tinge of color to the scene. The many beautiful and gay colored gowns worn by the ladies made a brilliant showing against the evergreens. It was a pretty party and a pleasant one. Lunch was served for a small sum extra.

The ball was given under the auspices of the V. N. A. of this city, an organization we should all be proud of, for its excellent work. About \$135.00 was cleared.

**GOODNOW**  
Mr. and Mrs. Clas Steele were at Mr. and Mrs. Ira Yellon's Thursday. Mrs. J. B. Loomis left Sunday evening for Minocqua where she is visiting with her daughter, Mrs. W. E. Yellon.

Charlie Strassman went to Merrill Saturday.

Several of the Goodnow people attended the basket social and dance given at Harshaw Nov. 20.

Chas. Steele lost a good cow last week by choking while eating turnips.

John Hill was in Rhinelander on business Thursday.

## RHINELANDER WOMEN'S CHRISTIAN TEMPERANCE UNION

Press Committee: Mrs. Howe, Mrs. E. K. Riek, Mrs. Emma Wilde, Mrs. C. P. Crosby.  
Sunday afternoon part of the law enforcement committee of the Woman's Christian Temperance Union made a tour of investigation through the saloon district of Rhinelander. No attempt was made to ascertain whether there were customers inside the places, but as the W. C. T. U. is of the opinion that if a full view of the interior of each saloon is exhibited, there will not be a large amount of drinking done; they have determined to go to any length to enforce this point.

It was found that a large majority of the saloons were carrying out the law in a praise-worthy manner, while a few had only opened a small area showing the space behind the bar alone, the doors and windows being curtained, or large permanent wooden screens being unremoved, completely hiding the interior, excepting the small space behind the bar. In one case the women saw a man standing behind the bar with his hand on the faucet of a little keg which sat on a shelf, to all appearances procuring a drink for himself or customer. As the remainder of the room was entirely shielded by the shades it was to be concluded they had something they wished to hide.

It seems to the women that this part of the law, relating to the removing of screens should have been fully enforced without interference on their part, as it is understood that the mayor gave the order to the saloons and Chief of Police and the chief has also said that he has given all saloons orders too, but if it is found necessary to have a committee of women patrol the streets each Sunday in order to secure results, even though the task is decidedly unpleasant to them they are willing and ready to do it.

Warrants have been prepared for five saloons but at present writing have not been served. As the men make the ordinances and appoint or elect the officials who are hired to enforce their laws and the saloons are under bonds to observe them, it seems as if they should be enforced without arrests being made by the women, but if there is no other way to get a perfectly good law carried out the women stand ready to do what they find necessary.

## THE PEOPLE AND "MOVIE" SHOWS

(Contributed)  
Able address by Rev. Heyl suggests a train of thought on responsibility of citizens in regard to picture shows.

The facts and figures concerning the growing popularity and influence of the "movies" were convincingly presented at vesper services last Sunday. Being in nightly operation they have much greater opportunities to mould, teach, and inspire the youth of our city than the churches. We are continually urged to support and aid by personal effort the churches of our city, and rightly for they stand for uplift and all that is best in the community. Yet they are not in daily operation. The people who support them stand for purity in all public activity and censure (justly) all pictures of questionable character. Such pictures should be abolished and can be, when these same people substantially aid the display of desirable films.

We assist the church in her activities for bettering conditions, by patronizing church suppers, sales and by contributions gladly. But to aid in the presentation of good pictures on attendance once in three months, with a contribution of ten cents is given by some of the leading critics of the "movies."

The following figures are eloquent of the situation in many places besides Rhinelander.

At a high class picture display, costing the proprietor twenty-five dollars, one hundred and seventy-five persons attended, making a total receipt of seventeen dollars and seventy-five cents. At a showing of a supposedly risqué picture costing the same amount, there was an attendance of six hundred and forty persons, making a receipt of sixty-four dollars.

Now, nearly every proprietor of a picture show would prefer to display pictures of a high class in every respect and will do so when encouraged in a practical way. The movies are not missionary ventures, nor charitable institutions, but commercial enterprises which are obliged to cater to the demands of the public. And you are the public.

We are told that the proprietors of picture shows should respect the church enough to close Sundays. This means respect the ideals of a certain body of persons enough to sacrifice twenty-five dollars per week to them, for Sunday is worth at least that much to any picture show. How much are you willing to sacrifice for your own ideals as to what a picture show should be? Would you attend twice a week and sacrifice (?) twenty cents to insure correct pictures by which the coming generation shall gain, in a very large measure, its ideals?

"No man who is unwilling to shoulder a gun, is in a position to criticize the policy" is a sentiment which applies here very aptly. The responsibility of every condition in the city is ours dear people. We can have them just as we want them if we want them hard enough.

A. B.

## REV. HEYL TALKS ON "THE MOVIES"

Mr. Heyl, pastor of the Congregational church preached the second of a series of three sermons, last Sunday afternoon. His subject was "The Movies."

He found in the scripture mention made of pictures, good and bad, and said that good pictures should be encouraged. He spoke of the wonderful work accomplished in a few years along the moving picture line and gave many statistics to show the enormous expense and the equally enormous returns from attendance to the shows.

Today the moving picture is the greatest power for good or evil. He spoke of its possibilities in the future and thought it only in its infancy as far as an intellectual factor. In time it would form the basis of education, as sight has the greatest power of all the senses to grasp and retain an idea. He also thought that if local theaters in any town or city were the means of keeping people away from church, then the church must compete with the theatres and also have pictures.

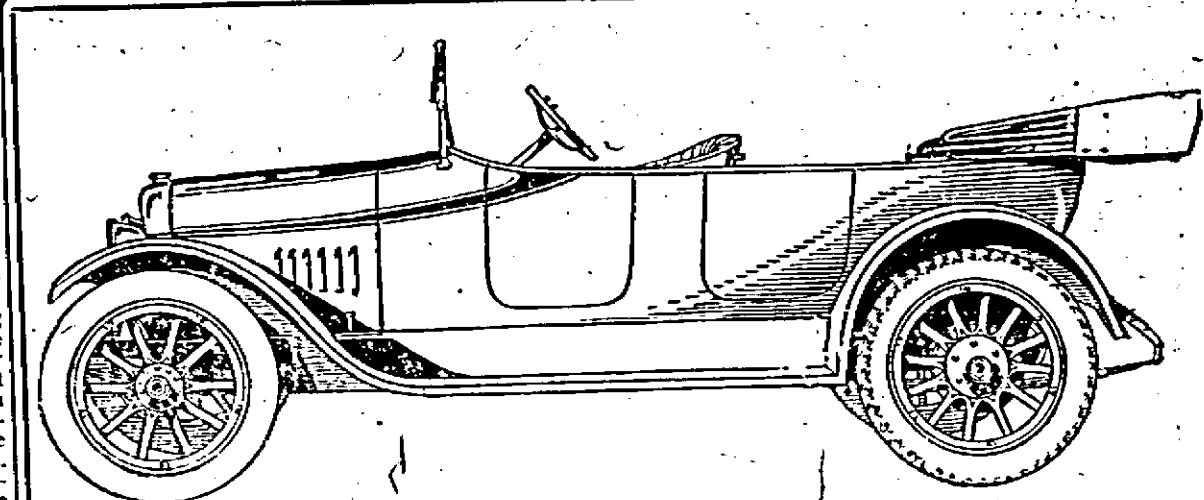

Mr. Heyl is giving us broad minded and intensely interesting sermons, which must have good results. The crowded house of last Sunday showed the popularity and interest displayed by the community.

**NOTICE TO TOWN TREASURERS**  
Bonds covering state and county tax should be filed with county treasurer not later than the third Monday in December, the date set under the laws of 1915 for which tax rolls should be in the hands of treasurer for collection. The amount of bonds, if taken with a surety company, should equal the amount of the state and county tax. If personal bonds are furnished they should be double that amount.

P. J. CAIN, County Treasurer.

**ENTERTAIN AT LUNCHEON**  
Mrs. Anna Walker and Mrs. Fred Meen gave a large luncheon Saturday at one o'clock and on the Tuesday following Mrs. Walker gave another luncheon. On both occasions the Hilgerman home on the south side was handsomely decorated. Yellow was the color scheme throughout the luncheon. Chrysanthemums were abundant and from the electrolights hung smiles. Cut glass candlesticks holding yellow candles and shades, adorned each table. The window shades were drawn and a soft yellow light was shed over the large and beautiful rooms. Bridge was played after the luncheon. The prize for the Saturday party was six cut glass tumblers and was won by Miss Leone Morgan. On Tuesday Mrs. Stevens won as prize, a traveler's leather stationery case.

Mrs. S. B. Gary is home from Wausau where she was confined for two weeks in a hospital.

Mrs. Maxwell of Antigo attended the charity ball here.

## Good Health Doubles the Value of Your Services

A half sick man is not worth half pay. A man or woman in poor health makes a poor leader, a poor sort of a parent.

The value of Peruna in the home can scarcely be estimated. It prevents many of the common ailments. It is an excellent remedy for coughs, colds, catarrh, grip, spring fever, tired-out feeling.

Sit down and think it over. See whether you can afford to go on half sick.

Some people prefer Peruna Tablets to the fluid Peruna.

## FIX AMOUNT OF CITY'S COUNTY TAX

The following is the city's share of the county tax for 1915:

General county tax	\$36,127.81
Soldier's relief	417.00
State Tax	6,831.10
Illegal Real Estate and uncollected proportion charged back	402.34
<b>Total</b>	<b>\$38,421.08</b>

Total of all taxes and charges to be paid county treasurer \$45,677.02

In contrast with this we print the city's share of the county tax for 1914, showing an increase of \$7,400. When it is taken into consideration that the state tax this year is \$1,100 less than one year ago as shown by the figures in the two years the total increase of the city's tax is \$8,600.

1914—	\$7910.93
County tax	30,372.37
<b>1915</b>	<b>\$45,677.52</b>
<b>1914</b>	<b>38,283.35</b>

Higher than 1914.....\$7,394.17

## You Don't Have to Wait for Your Pass-Book

The President

"I've just looked up my monthly statement and I can't find my balance."

The Bookkeeper

"I can't find my balance. I can't find my balance. I can't find my balance."

The Depositor

"I can't find my balance. I can't find my balance. I can't find my balance."

You do not need to leave your pass-book (your only receipt for deposits) with this bank and wait a day or more at the last of every month in order to find out how your account stands.

Instead, a neatly-printed, machine-figured statement of your checks and deposits, and the balance of your account is ready for you each month.

This improved service is made possible by the Burroughs Book-keeping Machine which is used in our accounting department.

The machine keeps every depositor's account figured right up to date all the time. If you ever want a statement in a hurry, we can give it to you inside of five minutes. Moreover it is absolutely accurate, as the machine never makes a mistake in figuring.

We are sure that you will find this Monthly Statement System less burdensome, more accurate, and far more satisfactory than the method of balancing pass-books.

## Lengthen the Life of Your Machinery

It has been proven that 75 per cent of the  
depreciation of farm machinery is due to  
weather exposure—only 25 per cent is due to  
wear and tear.

This means that rust destroys your machin-  
ery three times faster than use.

You can't save your machines from rust, but you can save them  
from rust. Build a shed. Keep your  
machines in it when not in use.

A machine shed is very simple to  
build. It doesn't cost much—in fact,  
is cheaper than paying for new ma-  
chinery or new parts. Build it now.  
We have the necessary cement, lum-  
ber, shingles, roofing, etc., and will  
be glad to help you with the plans.  
Let's talk it over. This puts you  
under no obligations.

## How To Get These at Seibel's Clothes Shop

## These Beautiful and Useful Articles FREE to YOU In EXCHANGE for our Hilco Profit Sharing Certificates

### HOW TO SECURE THEM

Hilco CERTIFICATES are given with every cash purchase, not as a gift, but as a discount for paying cash.

We can easily afford to give these really beautiful articles in exchange for Hilco CERTIFICATES (which are secured only with cash purchases) because, the cost of carrying charge accounts far exceeds the cost of these goods.

All business is based on volume; therefore, if we can secure a larger portion of your cash purchases by giving a cash discount in the shape of beautiful and useful articles for your home, it has been of mutual benefit, and both you and ourselves have profited thereby.

#### Our HILCO Certificates Are Valuable

They represent real money in that they are exchangeable for any article illustrated on this advertisement, as well as for many others shown in our catalogue, a copy of which will gladly be given you for the asking.

The merchandise shown in both this ad. and our catalogue must not be confused with the ordinary premium goods; on the contrary, they are THE MOST VALUABLE PREMIUMS EVER OFFERED by any store in our line.

Be sure to ask for a copy of our catalogue showing the full assortment of premiums and complete directions for securing them.

#### "HILCO" PROFIT SHARING CERTIFICATES ISSUED WITH EVERY CASH PURCHASE

Certificates issued by the Rhinelander Bottling Works and Rhinelander Brewing Company will be accepted for premiums at this store.

## INDUCEMENTS FOR MORE SETTLERS

State Departments Extending Aid To New Comers To Establish Homes

Commissioner C. P. Norgard of the Wisconsin Department of Agriculture, and Director B. G. Packer of the immigration division, are making plans to keep in close touch with new settlers of Wisconsin, to the end that the Department of Agriculture may assist settlers in overcoming hardships they may encounter in establishing homes.

"We would like recent settlers to communicate with this department when they encounter obstacles and drawbacks concerning which they need advice," said Commissioner Norgard today. "It is not the aim of the immigration division of this department simply to induce people to locate in Wisconsin. We desire to render all possible assistance in making their efforts to establish farms and homes successful."

"We also wish that when prospective settlers meet with unscrupulous land agents and dealers they would communicate with us, for this department considers itself duty bound to protect the prospective settler and the newcomer in every possible way."

"Recent settlers in Wisconsin also can be of great service to the division of immigration by writing to Director Packer and telling him of their successes in establishing new homes in this state. What they have accomplished may be of great advantage to prospective settlers."

Director Packer is soon to issue a new publication furnishing information relating to advantages offered by Wisconsin to the farmer, merchant and manufacturer. It will describe soil, climate, crop conditions and other advantages of Wisconsin land. The publication also will contain testimonials from satisfied Wisconsin settlers. In getting out this publication, Director Packer is not making use of misleading photographs. He is setting forth facts as plainly as possible.

"I believe people who inquire concerning Wisconsin conditions," said Director Packer, "desire accurate information, and not overdrawn, misleading statements. The new publication will contain nothing that is not accurate."

## BIRTH OF NATION SURELY COMING

Regardless of all reports to the contrary The Birth of A Nation will positively appear at the Majestic theater in this city, according to the statement of H. C. Zander.

Mr. Zander said, "It was my intention to have this great picture the feature for opening night at the new Majestic, but as it is now impossible to secure the picture for that date, I have arranged to show it later, perhaps the latter part of December. Stories in circulation to the effect that The Birth of A Nation is not going to be presented at my house are untrue and my patrons may rest assured that they will be given the opportunity to see this wonderful production. With the picture comes an orchestra of twenty-five pieces."

Work on the completion of the new Majestic is moving along rapidly. Mr. Zander will soon be prepared to announce the opening date.

### FORECLOSURE SALE

Notice is hereby given that by virtue of a judgment of foreclosure and sale duly entered in the circuit court for Oneida County, Wisconsin, on the 13th day of November, 1914, in an action in said court wherein D. A. Kahn is plaintiff, and Edward Menard, Eldora Menard and Ellen Muir are defendants, I shall expose Muir and sell at public auction to the highest bidder for cash, at the front door of the Court House in the City of Rhinelander, in said county of Oneida, on the 10th day of January, 1916, at ten o'clock in the forenoon of that day all of the land described in said judgment, to-wit:

The following described real estate situated in the county of Oneida and State of Wisconsin:

That part of the NW 1/4 of the NE 1/4 of section 11 in township 39 north of range 6 east, described as follows: Beginning 27 rods north of the southwest corner of the NW 1/4 of the NE 1/4 of section 11, Town 39, Range 6 east, thence north 4 chains and 18 links; thence east 10 chains and 29 links; thence south 2 chains and 20 links; thence southwesterly 4 chains and 53 links to the place of beginning, containing 4 acres of land more or less.

Which sale will be made as aforesaid for the purpose of paying the said judgment and costs of sale.

Dated November 19, 1915.

CHARLES S. CROFOOT, Sheriff.

H. F. STEELE, Plaintiff's Attorney. N25-J6

### TRIPOLI

Rev. Hadden held services here Sunday.

Born to Mr. and Mrs. Wilfred Nyberg last week, a baby boy.

Mr. Eigenberger from Madison is here—came up to hunt, but did not get much of a chance as he was out only about fifteen when he got one; a deer of course.

"Art" LeClaire is among the lucky number of hunters who killed a nice buck last Sunday.

Mrs. Grant Pursinger who was confined to her bed for a few days last week is able to be out again.

Mrs. Ed. Wendt is reported as being very ill again.

Frank Meyers was in town last week taking orders for the "Kero lamps." We understand he took quite a number of orders. We would recommend the lamp as being first class in every way.

Mrs. Baxter was the guest of Mrs. L. Hilton last Thursday.

Grant Pursinger is visiting his parents in the southern part of the state.

Mrs. Dora Peterson of Park Falls, and little daughter Mabel, are visiting at her father's, L. Halverson and other relatives.

Miss Lillian Baxter who has been working at Eau Claire for some time past is at home again at Reed's Mill.

Rev. Siltz was here from Tomahawk last week and helped to organize a Lutheran young people's society. Have not been able to learn the name of the society.

Mrs. Sinkula has been at Armstrong Creek for a week past visiting her husband, who is in business there.

Tri-County High School Notes
